Mr. G's Math Marvels

Handout #4 Probability

List all the ways that the following numbers can appear using two number generators each containing the numbers 1 through 6.

2

3

4

5

6

7

8

9

10

11

12

Which sum of numbers do you think will appear most frequently when the number generators are rolled twenty times? Why? _____
_____

Record the data below by using one tally under the number each time that sum appears.

2	3	4	5	6	7	8	9	10	11	12
